water, oil, grease & dirt repellent for textiles

HG water, oil, grease & dirt repellent for textiles

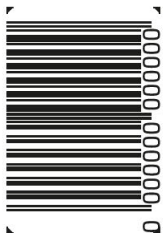

With HG "water, oil, grease & dirt repellent for textiles" you can protect your valuable textiles effectively and easily. Besides the strong water repellent effect of this product HG "water, oil, grease & dirt repellent for textiles" prevents dirty oil, sauce- and wine spots, etc. as well. Spillages with these liquids can easily be removed, after treatment, with an absorbent tissue. HG "water, oil, grease & dirt repellent for textiles" can be used for many applications. For instance, rain and sportswear, linen shoes, socks, garden cushions, tents, parasols, furniture, curtains etc., will be water repellent and protected at the same time by using HG "water, oil, grease & dirt repellent for textiles".

Directions for use: Avoid breathing spray. Use only outdoors or in a well-ventilated area. Test on an

inconspicuous area to check for colour-fastness. Do not treat if the colour runs. The material to be treated should be clean and dry. If the material to be treated is already coated, this may reduce the performance of the product. Keep the can upright and spray evenly from a distance of about 20 cm onto the surface to be treated. Avoid excessive over application (saturation). After drying for about one hour the treated material will be perfectly protected and ready to use. To ensure maximum ongoing protection, we recommend repeating the treatment occasionally.

Coverage: The contents of the can is sufficient for approx. 3,5 m² textiles.

Transport and store the bottle upright.

Medical personnel can request the data sheet via +31 (0)36 54 94 777

The consumer's information sheet can be obtained via www.HG.eu

DANGER H222-Extremely flammable aerosol. H229- Pressurised container: May burst if heated. H304- May be fatal if swallowed and enters airways. H315- Causes skin irritation.
