stainless steel cleaner

guaranteed streak-free

300 ml e 405 UK 3

HG stainless-steel cleaner

- guaranteed streak-free
- removes grease, dirt, and fingerprints
- contains special protective components

HG stainless-steel cleaner is a powerful professional cleaner that removes grease, dirt and fingerprints from stainless steel, chrome and aluminium quickly, easily and without streaks. This product is ideal for hobs, splash backs, cooker hoods, fridges, microwaves, etc. *HG stainless-steel cleaner* also provides an invisible protective layer, which makes it even easier to remove new layers of dirt.

Instructions:

Hot surfaces, such as hobs and splash backs, should always be left to cool before cleaning. Shake well before use. Spray an even mist from a distance of approx. 20 cm onto the surface or apply *HG stainless-steel cleaner* by spraying it onto a soft clean cloth.

Clean the surface and polish it with a soft clean cloth or tissue. Do not use *HG stainless-steel cleaner* on surfaces that come into direct contact with food products.

Tip:

Use *HG stainless steel protector* for a stronger and deeper shine.

Attention:

Store in a dry place to prevent rust formation on the can. Rust formation can impair the strength of the can. Should the can start to become rusty, we recommend handing it in to a waste-collection point. Keep in a frost-free area. 2% of the mixture consists of component(s) of unknown toxicity.
